PROFESSIONAL SUMMARY

4th-year Information Technology student specializing in Mobile and Web Application Development at National University Dasmariñas. Proficient in building responsive web applications and cross-platform mobile apps using Flutter, Dart, React, and TypeScript. Certified IT Specialist in Database Systems with hands-on experience in MySQL and Supabase backends. Seeking an OJT / Internship position with opportunities to contribute to production code and earn income through dedicated software development tasks.

EDUCATION & CERTIFICATION

BS in Information Technology
Specialization in Mobile & Web Application
National University Dasmariñas | 2023 – Present

IT Specialist - Database
Certiport / Pearson VUE
Sep 2025 – Sep 2030

TECHNICAL SKILLS

MOBILE DEVELOPMENT
Flutter, Dart, React Native, Cross-Platform Architecture

WEB DEVELOPMENT
React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

BACKEND & DATABASE
Supabase, MySQL, RESTful APIs, Database Design

TOOLS & METHODOLOGIES
Git, GitHub, VS Code, SDLC, Agile / Scrum

FEATURED PROJECTS

Bridges of Hope — Capstone Project

bridgesofhope-delta.vercel.app

Stack: Flutter • Supabase • TypeScript • Tailwind CSS

- Architected and deployed a full-stack web and mobile client designed for community support and resource bridging.
- Integrated Supabase backend for real-time database management, user authentication, and API endpoints.

Rhayz Kicks — Web Application

rhayz-kicks.vercel.app

Stack: React • JavaScript • CSS3 • Vercel

- Developed a modern e-commerce user interface featuring dynamic product catalog displays and responsive mobile layouts.
- Implemented clean state management for seamless user navigation and client-side browsing.

CORE COMPETENCIES

- Problem Solving & Debugging
- Agile Team Collaboration
- Technical Documentation
- Database Optimization
